

DELIVERING HEALTH AND HOPE

# Update on MedShare's Impact in Ukraine

\$11,943,108 IN AID PROVIDED

## RESPONDING TO THE CRISIS IN REAL TIME

MedShare's first shipment of critical medical supplies arrived in Ukraine via Warsaw, Poland. The project was supported by Narodny Tyl (People's Backing), a Ukraine-based group of volunteers who move medical resources to hospitals along the front lines by train, cars, minivans and small trucks. These supplies were ultimately delivered to hospitals in Rivne, a city in Northwest Ukraine near Lutsk.

## SUPPORTING THOSE ON THE FRONT LINES

Working in sync with a wide array of partner relief organizations that maintain a community-based presence on the ground in Ukraine and surrounding countries, MedShare is bolstering the herculean efforts of Convoy of Hope, Feed the Hungry, Salesian Missions, Razom for Ukraine, and NOVA Ukraine, among others, in the delivery of aid both into Ukraine and to Ukrainian refugees. MedShare has also provisioned 38 medical mission teams.

## \$11,943,108 IN AID TO UKRAINE TO DATE

MedShare's partnership-powered relief efforts have resulted in the distribution of tons of critical PPE, wound care, first aid, hygiene, primary care and surgical supplies generously provided by Owens & Minor, MC Johnson, Johnson & Johnson, DePuy Synthes, Heart to Heart, Clinics Can Help, Sutter Healthcare, Henry Schein, Philips Healthcare, Mizuho OSI, CHOA, Wellstar Health, and logistical support for the 18 container shipments to date from Airlink and Flexport.

MedShare initiated its disaster relief protocol in response to the crisis in Ukraine and surrounding countries on February 28, 2022. With no end to the crisis in sight, we pledge to continue to work hand-in-hand with our partners to deliver health and hope to the millions of men, women and children impacted by the ravages of war, and the selfless doctors, nurses, support personnel and volunteers committed to serving them and their families.
